I am a Computer Engineering Graduate with 3+ years of experience in **Web Development with an emphasis on Next JS, and Google cloud,** and I have experience working with **giant Corporate, Startups and Freelance Jobs.** I have worked in professional capacity for both creating a solution from scratch to deployment and maintaining a codebase of decade long and passed on by a dozen developers. I am actively looking for full-time, and contractual Jobs.

Education:

- **A. C. Patil College of Engineering** (BE Computer Engineering): **CGPA 7.75 / 10**.   **2021**
- **Model Higher Secondary College (HSC:** Science**): 72%**   **2017**
- **Sai English School (SSC:** 10th**): 81.80%**   **2015**

PROFESSIONAL EXPERIENCE:

Eqaim Technology & Services | Full stack developer   Noida, Uttar Pradesh | **Feb 2023 – Current**
Tech Stack: Next JS, PSQL, Koa, Express JS, CMS, Cypress, OnSched , GitHub Actions, GCP 's Cloud Run, and GKE
- Successfully converted **monolithic backend to micro-service architecture**, and then deployed It on cloud Kubernetes service.
- Together we reduced monthly **cloud cost** by **40%**, increased code readability, and **accessibility** by **60%.**

Infosys LTD. | Systems Engineer   Pune, Maharashtra | **Dec 2021 to Nov 2023**
Tech Stack: jQuery, HTML5, CSS3, & SQL Server
- I handled **code review, development, and maintaining of code base**. I also attended solution pitch to **North Atlantic based clients**, working on project of **10 years** and company worth over **15B USD.**
- I was responsible for **full-stack solution** using jQuery, and SQL, our product increased visibility in company production, decreased accidents, and **reduced maintenance cost by 40%**.

PROJECTS:

Share Doc:
Tech Stack: - Next JS, Mongo DB, Google Cloud Storage, Docker, Google Cloud Run.
- It is a convenient way to **share documents.** Users have simple way to **share files up to 3GB** by creating a **temporary public link to share** it to there feed, hihc will stop working after user desired time.
- Unlike **Google Drive** thery **don't have to worry about providing, and removing access.**
- Goal behind creating this app was to **make cloud resources more acccessible to regular people**.

Zoom car:
Tech Stack: - React JS, Mongo DB, Express JS, Node JS, Google Drive API, Vercel.
- It is a dynamically rendered car rental e-commerce web app which provides user variety of car options based on car details, fuel type, location, and service availability.
- Implementation of PM2, asynchronous development to make a highly performant, web-app.

Skills:

Tech Stack:	**Next JS, React JS, Express JS, MongoDB, Tailwind CSS, PSQL, Redis, and Cypress.**
DevOps and Cloud:	Git lab, Docker, Git, GCP's Cloud Run, Cloud Storage, Pub-Sub, and Kubernetes Engine.
Others:	React Native, Koa, Web Security, HTML, CSS3, Tailwind, Cypress, JQuery, SEO, Vercel .
Soft Skills:	Problem-solving, time management, communication, Google Font and Icons.
Extracurricular Interest:	Cricket, chess, and Kabaddi.
